

Board of Health

NO OTHER AGENCY  
CAN OFFER YOU THIS  
COMPREHENSIVE  
ARRAY OF  
SERVICES TO  
MEET YOUR PHASE II  
REQUIREMENTS  
AND AT SO LOW  
OF A COST!

## *Illicit Discharge Detection and Elimination Minimum Control Measures*

*Helping you meet your NPDES Phase II  
(Stormwater) requirements*

The Franklin County Board of Health offers the following services to cities and villages to help meet your NPDES Phase II (Stormwater) requirements.

Visual observations of MS4 outfalls during dry weather at a frequency determined by your community.

Dry weather sampling of outfalls when needed.

Digital photos, GIS database, and complete documentation of all activities.

Public education regarding the hazards of illicit discharges especially about sewage system pollution.

If you would like more information about the above two services and their costs, please call Paul Rosile, Environmental Health Director, at (614) 462-3852 or email him at [parosile@franklincountyohio.gov](mailto:parosile@franklincountyohio.gov).

*The following additional services will be provided at to help meet the illicit discharge detection and elimination minimum control measures.*

- Household sewage system mapping
  - Coordinating our database and your information to produce a GIS map of all sewage systems in your community
- Tracing back all illicit discharges to their sources
- Assisting homeowners and business who are illegally discharging to remove the source through voluntary or enforcement action
- Offering homeowners whose sewage systems discharge into a storm sewer alternatives for correction
- Offering free consulting to your community in setting priorities, policies or ordinances about the prevention of illicit discharges or the extension of public sewer or water
- Assisting your community in enforcing mandatory sanitary sewer tap-in policies
- Referring violations of the Clean Water Act to the Franklin County Sheriff

It is illegal to dump or pour anything into a storm drain. As part of the Franklin County Anti-Dumping Project, we encourage residents to report illegal discharges into storm drains just as they would report illegal dumping and littering. Feel free to promote the Nail-A-Dumper website and hotline to help meet the educational components of your Phase II requirements.

The Nail-A-Dumper hotline (614-871-5322) and website ([www.nailadumper.com](http://www.nailadumper.com)) provide you with 24 hour, seven days a week, 365 days a year access to report illegal dumping, littering & illegal discharges into storm drains.
